

This holiday season, would you like to give a gift that will be cherished forever?

For that very special child in your life.... A storybook that features them as the star!

You choose the photos that fill each delightful page, taking your youngster on a trip through their very own **A to Z Day**.

They will thrill to see their own face and the faces of those they love, surrounded by colorful illustrations that bring each page to life!

It's digital scrapbooking made easy! Just purchase an **A to Z Day** CD from **Young@Heart Books** for a special introductory price of \$20.00. It has everything you need to make your own books, right at home on your own computer. (Recommended age of child to be featured is approx. 1 to 5 years.) We provide all the templates and instructions for making a complete book featuring a little boy or girl. Our CD guides you through the process of taking and then arranging your own photos on 14 fully illustrated colorful pages. In addition you will need a digital camera, a system for downloading and editing your photos on your computer, and a desktop publishing program such as Microsoft Publisher.. You can print the pages at home, or put them on a disc and take them to your nearest copy center. Options for binding your creation are suggested, and can be customized to suit your budget. *Please respect our nation's copyright laws, and the rights of those who created this work, Alison Herron & Barbara Arend, by refraining from sharing your legally purchased CD with anyone else. Purchase of a CD entitles you to make unlimited copies of your own A to Z Day books (to be given as gifts and not sold) featuring children within one family, but does not entitle you to share your CD with others. Please refer others to Alison Herron of Young@Heart Books so that they can purchase their own CD. Thank you.*
